FOR IMMEDIATE RELEASE

“DUST-FREE” SANDING TAKES OFF LEAVES OTHER CATEGORIES IN THE DUST

SOUTHBRIDGE, MA – Hyde Tools introduced its first dust-free drywall sander more than a decade ago, at a time when “dust-free” was reserved for orbital sanding equipment that cost professionals thousands of dollars. HYDE® dust-free sanders, by comparison, cost under \$30. Today, Hyde’s dust-free sanders start at \$14.99 for a tool that removes 99% of the dust from sanding not only drywall, but wood as well.

The effectiveness – and cost-effectiveness – of Hyde’s growing line of dust-free tools perhaps explains their growing popularity. HYDE® dust-free sanders are now sold by a wide range of retailers, ranging from home stores to hardware centers and industrial suppliers. Hyde’s current line includes 4 models:

- 09160 The HYDE® Mini Sponge Sander (for all materials) [see video](#)
- 09165 Vacuum Hand Sander (for drywall) [see video](#)
- 09170 Vacuum Pole Sander, without pole (for drywall)
- 09175 Vacuum Pole Sander with pole (for drywall) [see video](#) [see “pro test” video](#)

For more information on the HYDE® dust-free sanders, visit hydetools.com or contact Hyde Tools customer relations at (800) 872-4933.
