FOR IMMEDIATE RELEASE

May 7, 2013

**INTRODUCING THE NEW
HYDE® CLAW GRIP™ POLE SANDER
AND SANDING SPONGES**

SOUTHBRIDGE, MA – Hyde Tools has introduced an innovative new pole sander that uses replaceable sanding sponges instead of sandpaper.

Brought to you by one of the most trusted names in home remodeling, the HYDE® Claw Grip™ Pole Sander is one of several new Hyde products that promise to transform the way both professionals and DIY users approach sanding projects.

To load the Claw Grip™, you simply set the aluminum head on a sanding sponge and release the “claws,” which grip the sponge securely every time. The no-flip, low-profile, U-joint design provides a smooth sanding action and eliminates the common problem of accidentally “flipping” the sanding head and damaging the wall. The sanding head itself is Acme-threaded for use with standard poles.

With the Claw Grip™, sanding corners is far easier and more effective. You simply replace the flat sanding sponge with a triangular one.

“There are many advantages of using sponges,” notes Corey Talbot, Vice President of Marketing and Product Development for Hyde Tools. “They last longer than sandpaper, and you can rinse and reuse them wet or dry. They’re also reversible, so you can just flip the sponge over and continue.”

Say good-bye to tearing, hard-to-replace sandpaper and the awkwardness of corners, he concludes. You simply choose the correct sponge shape and grit for the job at hand, snap the Claw Grip™ in place and you’re ready to go.

Hyde also supplies a variety of sponges that fit the sanding head, including rectangular sponges with a medium (150) or fine (220) grit and a triangular sponge with a 220 grit for corners. The rectangular sponges measure 8-7/8”x4”x3/4”, and are available with grit on either two or four edges.

Products for flat sanding include:

- #09049 – Claw Grip™ sander head with 2-sided medium-grit sponge
- #09051 – 4-sided rectangular replacement sponge, 220 fine grit
- #09052 – 4-sided rectangular replacement sponge, 150 medium grit
- #09054 – 2-sided rectangular replacement sponge, 220 fine grit

Products for corner sanding include:

- #09082 – Claw Grip™ sander head with triangular sponge, 220 fine grit
- #09083 – Triangular replacement sponge, 220 fine grit
