**HYDE<sup>®</sup> Heavy Duty Scrapers  
Tough by Design**

Renovation, restoration and remodeling have one thing in common -- heavy duty scraping, cleaning and prep! These new Heavy Duty Hyde<sup>®</sup> scrapers answer the Pros' need for sharp and durable scrapers to take the daily pounding on those really tough jobs.

Built-in Hyde quality speeds the removal of tile, grout, carpet and linoleum, even roofing materials. The heavy gauge handles can take the constant pounding of hand or hammer chiseling, and the powerful cast head intensifies impact without requiring extra effort.

Available in four lengths – from a 12” offset to a 54” hammer scraper – all scrapers have high carbon steel blades which are double-edged for extended life – and the 4” and 6” blades can be re-sharpened.

The welded neck design keeps the blade rigid, and the heavy gauge handle – with foam hand protection – makes for long life and maximum striking power. The high carbon steel replaceable blades extend durability.

For more information on these tools, call 800-USA-HYDE.
